

BIN MOVER

THE IDEAL WAY TO MOVE YOUR GRANARY

Ensuring farmers have grain bins close to their fields is important for any farm operation. Whether you are a farmer who is consolidating your bins or a bin builder transporting bins to location, Trailtech ensures you can move bins quickly and safely.

The tilting bed goes from full vertical to full horizontal allowing for a bin to be laid down for transport mode and then fully stood up upon delivery. Trailtech's design ensures that the entire bin moving process is easy and seamless.

FEATURES

The Trailtech Bin Mover has been built to handle bins up to 19' in diameter and up to 32' in height. Equipped with 7000 lb Torflex axles with electric brakes, heavy duty hydraulic cylinders and ST235/80R16 load range E tires, the bin mover can accommodate the heavy load of a grain bin. Each BM270-32 bin mover model offers a heavy-duty mainframe, landing pads, and a locking mechanism for the forward cradle giving you peace of mind during the move.

The tilting bed goes from full vertical to full horizontal allowing for a bin to be laid down for transport mode and then fully stood up upon delivery. Trailtech's design ensures that the entire bin moving process is easy and seamless.
