

COMBINE TRAILERS

THE PROFESSIONAL CHOICE FOR COMBINE TRAILERS

If you are a custom harvester or an implement dealer delivering to customers, you want mobility, durability, and serviceability from your combine trailer. Trailtech combine trailers offer this and so much more. The Harvester series combine trailers have been built to handle today's combine. The increased weight and overall size of these units demand that the trailers are tailored to fit. Each model offers a heavy-duty mainframe and crossmembers for proper strength.
