FEATURES

Beavertail & Double Pivot Ramps

The 5' beavertail creates an ideal loading incline combined with the ease of spring assisted ramps.

Step & Grab Handles

Gooseneck step and grab handles make it easier and safer to get up onto the trailer deck.

Open Cleated Beavertail

The open cleated beavertail eliminates the slippage common on wooden beavertails.

Spring Assisted Flip Up Center

It is now easier than ever to extend the length of your deck with the spring assisted flip up centre.

Dual Drop Foot Jacks

Dual HD drop foot jacks and expanded metal basket are standard on all goosenecks for increased stability, lift and storage capacity.

Hitches

Models are available with either pintle or gooseneck hitches allowing you to match any tow vehicle requirements.
